## **PROFILE OVERVIEW**

During my career as a visual artist I have created a wide-ranging body of work that has been recognized in many international venues. I am currently based in Santa Fe, NM and have exhibited throughout North America as well as in Europe.

In 2006 I was an artist in residence at Kulturmodell in Passau, Germany where, besides an exhibition of my artwork, I was tasked with meeting the public, touring the show and explaining the images and technology used to create some of the images.

I have also done critical writing on various aspects of the contemporary world of culture where I have discussed trends in both North America and Europe.

My artwork has explored several themes through a variety of media including painting, printmaking, photography, as well as multi-media. Much of my imagery has been connected to the landscape, both urban and rural, as well as to the human figure and its connections to the contemporary environment.

## **EDUCATION**
